

200 Questions

Que. 1 **Direction:** Read the following information carefully and answer the given questions:

Eight persons A, B, C, D, E, F, G and H live on different floors of an 8-floor building. The bottommost floor is numbered 1 and the topmost floor is numbered 8. G lives on an even numbered floor but not on the 2nd floor and 6th floor. Two persons live between G and A. G live above A's floor. D lives above E's floor and below C's floor. 3 persons lives between A and B. B lives immediately above G. F lives on an even numbered floor. F lives immediately above the B's floor. Two persons lives between F and H.

Who lives on 7th floor?

1. A
2. C
3. D
4. E
5. H

Solution Correct Option - 3

Que. 2 Who lives on 4th floor?

1. G
2. H
3. B
4. A
5. E

Solution Correct Option - 1

Que. 3 Who lives between B and H?

1. G
2. A
3. C
4. D
5. E

Solution Correct Option - 1

Que. 4 Who lives immediate above E?

1. H
2. G
3. A
4. B
5. C

Solution Correct Option - 1

Que. 5 Who lives on 5th floor?

1. B
2. A

3. C
4. D
5. E

Solution Correct Option - 1

Que. 6 **Direction:** Read the following passage and choose the correct answer.

In a code language

“can we do payment now” is written as “mz kyd ck pr agk ”,
 “payment by mobile is easy” is written as “pm kyd xf dj rdx ”,
 “bank credit always easy now” is written as “ pr fd pe rdx kgf ”
 “credit process amount is delay” is written as “pm kgf op bn sda ”

What is the possible code for "train easy"?

1. pm kgf
2. rdx fd
3. rdx mz
4. rdx cv
5. sda op

Solution Correct Option - 4

Que. 7 What is the code for "credit payment"?

1. kgf rdx
2. kyd kgf
3. rdx kyd
4. sda xf
5. pm pr

Solution Correct Option - 2

Que. 8 what is the code for "now"?

1. pr
2. mz
3. dj
4. xf
5. bn

Solution Correct Option - 1

Que. 9 What is the code for "bank"?

1. fd
2. xf
3. sda
4. pe
5. Either 1 or 4

Solution Correct Option - 5

Que. 10 What is the possible code for "credit payment is difficult"?

1. kgf rdx pr ck
2. kgf kyd pm co
3. kgf kyd pm pr
4. kgf rdx pr dj
5. k f fd mz om

Solution Correct Option - 2

Que. 11 **Directions:** Study the following information and answer the given question.

Eight friends A, B, C, D, E, F, G, and H are sitting in a circle facing the Centre. Each of them belongs to a different games – Sudoku, Chess, Football, Golf, Tennis, Cricket, Ludo and Table tennis. They are not necessarily seated in the mentioned order. A is sitting third right of C, who plays Golf. Only one person is sitting between C and D. D is neither an immediate neighbor of Ludo nor of Tennis player. The Person who plays Sudoku is the Second left of who plays Ludo. The Person who plays chess is sitting immediately left of A. H is an immediate neighbor of C and D. B is sitting third left of H and plays Tennis. E is sitting exactly in between B and F, who plays Cricket. G is sitting opposite A. F is neither an immediate neighbor of Football nor of the Table tennis player.

Who is playing Table tennis?

1. A
2. E
3. G
4. H
5. G or H

Solution Correct Options - 5

Que. 12 How many persons are seated between B and D ?

1. One
2. Two
3. Three
4. Four
5. Five

Solution Correct Option - 3

Que. 13 Who sits exactly between Sudoku and Football Player ?

1. G
2. A
3. F
4. B
5. None of above

Solution Correct Option - 5

Que. 14 Who sits second to the left of B ?

1. C
2. F
3. E
4. G

5. A

Solution Correct Option - 2

Que. 15 Four of the following five are alike in a certain way based on their seating positions in the above arrangement and so form a group. Which is the one that does not belong to the group ?

1. D
2. Cricket
3. B
4. Golf
5. Football

Solution Correct Option - 5

Que. 16 **Directions:** These questions are based on the following information.

In a family of eight members K, L, M, N, O, P, Q and R. There are three married couples and three generations.

N is the nephew of O and grandson of L. K is the son of M and married to P. O is the daughter of M and sister of K. R is niece of K. L is the father-in-law of Q who is the father of R.

Which of the following statement is true?

1. N is the daughter of O.
2. P is the sister-in-law of O.
3. N and R are siblings.
4. Q is aunt of N.
5. R is the son of P.

Solution Correct Option - 2

Que. 17 Who among the following is one of the cousins?

1. P and R
2. N and R
3. P and Q
4. O and P
5. Cannot be determined

Solution Correct Option - 2

Que. 18 How K is related to Q?

1. Sister-in-law
2. Brother-in-law
3. Niece
4. Sister
5. Can't be determined

Solution Correct Option - 2

Que. 19 **Direction:** In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Some A is B.
All B is C.
Some A is not D.

Conclusions:

- I. Some A is C.
II. Some A is not B.
1. Only I follow
 2. Only II follow
 3. Both I and II follow
 4. Either I or II follows
 5. Neither I nor II follows

Solution Correct Option - 1

Que. 20 **Direction:** In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few Bus is Car.
Some Car is Train.
Some Train is Truck.

Conclusions:

- I. Some Car is Truck.
II. All Bus being Car is a possibility.
1. Only I follow
 2. Only II follow
 3. Both I and II follows
 4. Either I or II follows
 5. Neither I nor II follows

Solution Correct Option - 5

Que. 21 **Directions:** In the question below are given two statements followed by two conclusions numbered I, and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

No Bucket is a Lock.
Some Bulbs are Bucket.

Conclusions:

- I. All Bulbs being Lock is a possibility.
II. All Lock being Bucket is a possibility.
1. Only I follow
 2. Only II follow
 3. Either I or II follows
 4. Neither I nor II follows
 5. Both I and II follows

Que. 22 **Direction:** In the question below are given two statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few Hot is Cold.

All Freeze is Cold.

Conclusions:

I. All Hot can be Freeze.

II. Some Freeze is Cold.

1. Only I follow
2. Only II follow
3. Both I and II follows
4. Either I or II follows
5. Neither I nor II follows

Solution Correct Option - 2

Que. 23 **Direction:** In the question below are given two statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Only a few A is B.

Some B is D.

Conclusions:

I. All A can be B.

II. Some D is not A.

1. Only I follows
2. Only II follows
3. Both I and II follows
4. Either I or II follows
5. Neither I nor II follows

Solution Correct Option - 5

Que. 24 **Directions:** In the question below are given a statement followed by two courses of action numbered I and II. A course of action is a step or administrative decision to be taken for improvement, follow-up or further action regarding the problem, policy, etc. Based on the information given in the statement to be true, then decide which of the suggested courses of action logically follow(s) for pursuing.

Statement:

Village A has existed on the outskirts of City A for many years. An SEZ for huge MNCs has been built on the outskirts of City A, a few miles away from the Village A. The only source of drinking water for the village is a river that flows through the village. Recently, people and livestock of the village have been suffering from fatigue and bouts of nausea. The Sarpanchs of the village launched a complaint to their higher-ups about the same. A team of researchers tested the river water and reported that the water contained chemicals that were causing the illness.

Course of Actions:

- I. The villagers are informed about the situation and asked to find another source of water.
- II. The villagers are asked to relocate.
 1. Only I follows.
 2. Only II follows.
 3. Either I or II follows.
 4. Neither I nor II follows.
 5. Both I and II follow.

Solution Correct Option - 4

Que. 25 **Directions:** In the question below, two statements are given followed by two conclusions numbered I and II. You have to assume everything in the statement to be true, then consider the two conclusions together and decide which of them logically follows beyond a reasonable doubt from the information given in the statement. Give answers accordingly.

Statements:

- 1) The government has passed a bill to demonetize the Rs. 2000 notes making the Rs. 500 notes as highest denomination.
- 2) Economists think that the highest denomination of currency should be Rs. 500.

Conclusions:

- I. Government is afraid of some economists and is heeding to their demands.
- II. The government's decision is in sync with expert recommendations.

1. only conclusion I follows
2. only conclusion II follows
3. both the conclusions follow
4. neither conclusion I nor II follows.
5. either conclusion I or conclusion II follows

Solution Correct Option - 2

Que. 26 **Directions:** In each question below is given one/more statements that followed by two assumptions numbered I and II. Consider the statement and decide which of the given assumptions is implicit.

Statement: As the prices of petrol and diesel shoot up, more and more people are resorting to the use of electric vehicles.

Assumptions:

- I. Using electricity for powering vehicles is less expensive than using petrol or diesel
- II. Many people cannot afford the raised prices of petrol and diesel
 1. Only assumption I is implicit
 2. Only assumption II is implicit
 3. Both I and II are implicit
 4. Neither I nor II is implicit
 5. Either I or II

Solution Correct Option - 1

Que. 27 **Directions:** A statement is given followed by two inferences I and II. You have to consider the statement to be true even if it seems to be at variance from commonly known facts. You have to decide which of the given inferences, if any, follow from the given statement.

Statement: Though one's sex is biologically determined, one's sexual identity or gender is socially and culturally constructed.

Inference:

- I. The terms male and female are different from masculine and feminine.
 - II. Masculine and feminine may vary based on social and cultural codes.
1. If only I follows
 2. If only II follows
 3. If both I and II follows
 4. If neither I nor II follows
 5. If either I or II follows

Solution Correct Option - 3

Que. 28 How many meaning full words can be made by using the letters of the word GOLDY either starting with letter "G" or ending with letter "G"? (letters should not be repeated)

1. 3
2. 8
3. 5
4. 6
5. 7

Solution Correct Option - 4

Que. 29 **Directions:**Read the information given and answer the following questions.

1. Ashland is to the north of East Liverpool and west of Coshocton.
2. Bowling green is to the north of Ashland and west of Fredericktown.
3. Dover is to the south-east of Ashland.
4. East Liverpool is to the south-west of Fredericktown and west of Dover.
5. Fredericktown is to the north of Dover and north-east of Ashland.
6. Coshocton is to the south of Fredericktown.

Which of the mentioned towns is furthest in the north – west?

1. Ashland
2. Bowling green
3. Coshocton
4. East Liverpool
5. Fredericktown

Solution Correct Option - 2

Que. 30 Which of the following is to the south-west of Fredericktown?

- (a) Ashland
- (b) Coshocton
- (c) East Liverpool

1. a only
2. b only
3. c only
4. a & b
5. a & c

Solution Correct Option - 5

Que. 31 Which of the following is situated to the south-west of at least one other town?

1. Ashland only
2. Ashland and East Liverpool
3. Dover and Fredericktown
4. Dover, Coshocton and Fredericktown
5. Coshocton, Dover and East Liverpool

Solution Correct Option - 2

Que. 32 Which of the following statements, if true, would make the information in the numbered statements more specific?

1. Coshocton is north-west of Dover.
2. East Liverpool is north of Dover.
3. Ashland is east of Bowling Green.
4. Coshocton is east of Fredericktown.
5. Bowling green is north of Fredericktown.

Solution Correct Option - 1

Que. 33 Which numbered statement provides information that can be deduced from one or more other statements?

1. 1
2. 5
3. 3
4. 4
5. 6

Solution Correct Option - 4

Que. 34 **Directions:** Read the instructions carefully and answer the question below.

Seven candidates, Ajay, Neha, Suman, Paresh, Rohit, Aditya, and Muskan, are selected for the post of Excise inspector. These candidates belong to seven different states namely, Haryana, Punjab, Delhi, Bihar, Odisha, Kerala, and Sikkim, but not necessarily in the same order.

Rohit is neither from Kerala nor from Bihar. Ajay and Paresh are neither from Kerala nor from Haryana.

Either Suman or Neha is from Sikkim. Neither Muskan nor Ajay is from Bihar or Delhi. Paresh and Suman are from Haryana and Punjab but not necessarily in the same order.

Who belongs to Odisha?

1. Rohit
2. Paresh
3. Ajay
4. Neha
5. Muskan

Solution Correct Option - 3

Que. 35 Which candidate is from Delhi?

1. Paresh
2. Rohit
3. Neha
4. Aditya

5. Suman

Solution Correct Option - 2

Que. 36 Who is from Haryana?

1. Paresh
2. Suman
3. Neha
4. Ajay
5. Can't be determined

Solution Correct Option - 2

Que. 37 Which candidate belongs to Bihar?

1. Neha
2. Paresh
3. Muskan
4. Aditya
5. Rohit

Solution Correct Option - 4

Que. 38 Muskan belongs to which state?

1. Sikkim
2. Odisha
3. Kerala
4. Delhi
5. Punjab

Solution Correct Option - 3

Que. 39 **Direction:** Study the following information carefully and answer the question given below.

Eight employees P, Q, R, S, T, U, V, and W are going to attend a meeting in different months viz. July, August, September, and October on the 7th and 20th of each month but not necessarily in the same order. Only one employee will attend the meeting on the given dates. Only three people will attend the meeting between Q and W. W will attend in the month having 30 days. P attends on an even date but not in October. Two people will attend between P and S. Not less than four people will attend between S and T. T attends before S. U and V both will attend the meeting on an odd date. U will not attend immediately before W.

How many people will attend the meeting between P and W?

1. Two
2. Four
3. One
4. Three
5. More than three

Solution Correct Option - 3

Que. 40 Who among the following will attend the meeting on 7th October?

1. R

2. S
3. W
4. P
5. U

Solution Correct Option - 2

Que. 41 Q attends the meeting on which of the following day?

1. 20th August
2. 20th September
3. 20th October
4. 20th July
5. 7th August

Solution Correct Option - 4

Que. 42 **Direction:** Study the following information carefully and answer the question given below.

Eight students are going to attend a lecture on different months viz. March, April, May, and June on the 8th and 21st of each month but not necessarily in the same order. Only one student will attend the lecture on the given dates. P will attend the lecture on the 21st of any of the given months but before R. Only four students will attend the lecture between P and R. Q and S will attend in the same month having 30 days. Only three students will attend between S and T. U will not attend the lecture on the 8th of any month. W will attend the lecture before V.

Which of the following statement is false?

1. Two students will attend the lecture between S and R.
2. Only three students will attend before Q.
3. T is the last one to attend the lecture
4. S attends on 21st April
5. Only two students will attend after U.

Solution Correct Option - 2

Que. 43 How many students will attend the lecture after V?

1. Two
2. Three
3. Four
4. None
5. More than four

Solution Correct Option - 2

Que. 44 **Directions:** Read the information given below carefully and answer the questions that follow.

Ten persons are sitting in two parallel rows containing five persons each, in such a way that there is an equal distance between adjacent persons. In row – 1 A, B, C, D and E are seated (but not necessarily in the same order) and all of them are facing south. In row – 2 Z, X, W, Y and V are seated (but not necessarily in the same order) and all of them are facing north. Therefore, in the given seating arrangement each person seated in a row faces another person of the other row.

A is sitting third to the right of B. The one who is facing A is sitting second to the left of Z. The one who is facing Z is sitting to the immediate left of C. The person sitting opposite to the C is the immediate neighbour

of Y. X is sitting third to the right of Y. E is sitting to the any of position to the left of the one who is sitting opposite of X. V is sitting to the any of position to the left of the one who is facing E.

Find the odd one out?

1. A
2. Z
3. W
4. Y
5. E

Solution Correct Option - 2

Que. 45 Who is sitting exactly between the C and E?

1. YB
2. AD
3. DB
4. DZ
5. None of these

Solution Correct Option - 3

Que. 46 Who sits to the immediate left of the V?

1. The one who is sitting opposite B.
2. X
3. The one who is sitting opposite A.
4. W
5. None of these

Solution Correct Option - 3

Que. 47 Which of the following statement is true?

1. Only one person is sitting to the right of E.
2. Y is the neighbour of Z.
3. Only four persons are sitting between A and E.
4. D is sitting in the middle of the row.
5. None of these

Solution Correct Option - 4

Que. 48 Who is facing B?

1. Z
2. W
3. V
4. X
5. Y

Solution Correct Option - 4

Que. 49 **Direction:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statements: $G < M \geq N$; $B \leq U \leq S < G$

Conclusions:

I. $B > N$

II. $U < M$

1. Only II is True
2. Neither I nor II is True
3. Both I and II are True
4. Either I or II is True
5. Only I is True

Solution Correct Option - 1

Que. 50 **Direction:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statements: $H \geq W > K < Y$; $T < K > L$

Conclusions:

I. $H \geq L$

II. $Y < T$

1. Only I is True
2. Neither I nor II is True
3. Both I and II are True
4. Either I or II is True
5. Only II is True

Solution Correct Option - 2

Que. 51 **Direction:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statements: $G > W = U < T$; $K \leq H < W$

Conclusions:

I. $T > H$

II. $G \geq K$

1. Both I and II are true
2. Only I is true
3. Either I or II is true
4. Only II is true
5. Neither I nor II is true

Solution Correct Option - 2

Que. 52 **Direction:** In the following question assuming the given statements to be True, find which of the conclusion among given conclusions is/are definitely true and then give your answers accordingly.

Statements: $R > S \geq F > E$; $B < A < E$

Conclusions:

I. $R > A$

II. $B < S$

1. Both I and II are True
2. Only I is True
3. Either I or II is True

4. Only II is True
5. Neither I nor II is True

Solution Correct Option - 1

Que. 53 **Directions:** In the following question assuming the given statements to be true, find which conclusion among the given conclusions is/are definitely true and then give your answers accordingly.

Statements: $M \leq P \leq Q = R$; $L > N = M$

Conclusions:

I. $N < R$

II. $N = R$

1. Only I is true
2. Only II is true
3. Either I or II is true
4. Both I and II is true
5. Neither I nor II is true

Solution Correct Option - 3

Que. 54 How many such pairs of letters are there in the word "REASONING" after arranging them in alphabetical order each of which has as many letters between them in the word (in both forward and backward directions), as they have between them in the English alphabetical series?

1. One
2. Two
3. None
4. Three
5. More than three

Solution Correct Option - 2

Que. 55 **Directions:** Read the instructions carefully and answer the question below:

Seven persons seated in a row some of them are facing north and some of them are facing south direction. K faces in opposite direction as that of T. H is not a neighbor of R and faces in the north direction. P sits immediate left of J and both faces in the same direction. T is not a neighbor of M. R is neither a neighbor of J nor T. M faces the north direction and no one sits to his left. R sits at the center of the table and faces towards the north direction. Three persons sit between J and T, who face south direction.

Who sits second to the left of P?

1. K
2. T
3. H
4. M
5. J

Solution Correct Option - 1

Que. 56 How many persons sit between M and K?

1. Zero
2. Three

3. One
4. Four
5. Two

Solution Correct Option - 2

Que. 57 Four of them are alike in a certain way to form a group. Determine the following which does not belong to that group?

1. M
2. T
3. K
4. H
5. R

Solution Correct Option - 2

Que. 58 Who sits immediate left of K?

1. P
2. R
3. T
4. J
5. M

Solution Correct Option - 2

Que. 59 Who sits third to the right of T?

1. R
2. J
3. P
4. M
5. H

Solution Correct Option - 3

Que. 60 **Directions:** Study the following information carefully and answer the questions given below:

P, Q, R, S, T, U, V and W are eight students. In a race competition each having a different speed.

S is slower than P but faster than U. U is not as fast as W. T is faster than V but slower than R. R is slower than U. Q is slower than S but faster than W.

Who is the third slowest among them?

1. R
2. W
3. T
4. Q
5. None of these

Solution Correct Option - 1

Que. 61 Read the following sentence and determine whether there is an error in it. The error, if any, will be in one part of the sentence. If the sentence is error-free, then select 'No Error' as your answer.

The diameter of a single, cylindrical DNA (A)/ component is always the same, (B)/ regardless to whether it forms part (C)/ of a fruit fly, or a beech tree. (D)

1. A
2. B
3. C
4. D
5. No error

Solution Correct Option - 3

Que. 62 Read the following sentence and determine whether there is an error in it. The error, if any, will be in one part of the sentence. If the sentence is error-free, then select 'No Error' as your answer.

The internet has (A)/turned out the (B)/ world into (C)/ a huge marketplace. (D)

1. A
2. B
3. C
4. D
5. No Error

Solution Correct Option - 2

Que. 63 In the sentence given below, one/more parts have errors and others are correct. Find out which part has an error and mark it as your answer. If there is no error, mark 'No error' as your answer.

Rajiv has been(A)/ studying a lot this(B)/ summer as his last exam(C)/ result was poor, Isn't he?(D)

1. Only A
2. B and C
3. C and D
4. Only D
5. No error

Solution Correct Option - 4

Que. 64 In this question, a sentence has been divided into four parts (A), (B), (C) and (D). Read the sentence to find out whether there is any grammatical error in it. The error if any, will be in one part of the sentence. Mark that part as your answer. If there is no error, the answer is 'No error'. Ignore the error of punctuation if any.

He requested his teacher (A) to say the instructions back (B) as he did not hear them (C) the first time. (D)

1. (A)
2. (B)
3. (C)
4. (D)
5. No error

Solution Correct Option - 2

Que. 65 In the sentence given below, one/more parts have errors and others are correct. Find out which part/parts has errors and mark it as your answer. If there is no error, mark 'No error' as your answer.

As most sports magazines can attest, (A) playing tennis and basketball requires (B) not only mental ability (C) but physical strength. (D)

1. Only B
2. Both A and B
3. Only C
4. Both B and D
5. No error

Solution Correct Option - 4

Que. 66 **Directions: Read the following passage carefully and answer the questions that follow. Certain words are printed in bold to help you locate them while answering some of these.**

Mobile phones may use two types of input devices. In regular mobile phones, a keypad type of device is used, which is mounted separately from the screen of the cellphone. Whereas in touch screen cellphones, a touch screen is a cellphone display screen that also acts as an input device. The touch screens are sensitive to pressure; a user interacts with the mobile applications by touching pictures or words on the screen. Most mobile phone keyboards are basic in that they use a **tactile** surface you are accustomed to touching, and underneath is a basic rubber peg that travels some depth until it encounters resistance in the form of the actual keyboard surface which is sometimes called a- bubble board. This is basically a semi-circle of aluminium shaped in the form of a dome and provides that springing effect of key and feedback on your finger when you press down and the button regains its at-rest shape and normal position. Touch screen technologies used in mobile phones include resistive, capacitive, and surface-wave-based systems. The resistive system consists of a normal glass panel that is covered with conductive and resistive metallic layers. These two layers are held apart by spacers, and a scratch-resistant layer is placed on top of the whole setup. An electrical current runs through the two layers while the monitor is operational. When a user touches the screen, the two layers make contact exactly at that spot. The change in the electrical field is noted and the coordinates of the point of contact are calculated by the processor. Once the coordinates are known, a special driver translates the touch into something that the operating system can understand, much as a computer mouse driver translates the movements of a mouse into a click or a drag. The change in the electrical current is registered as a touch event and sent to the controller for processing. In the capacitive system, a layer of an electroconductive material (most often indium-tin-oxide) that stores an electrical charge is placed on the glass panel of the monitor. When a user touches the monitor with his finger, some of the charges are transferred to the user, so the charge on the capacitive layer decreases. This decrease is measured in circuits located at each corner of the monitor. The computer calculates, from the relative differences in charge at each corner, exactly where the touch event took place and then **relays** that information to the touch screen driver software. In surface-wave-based systems, touchscreens operate by tracking ultrasonic sound waves to identify the location of points on a screen. Surface acoustic wave (SAW) touchscreens are made with a single pane of glass, a transmitter, and two piezoelectric receivers. The transmitter produces ultrasonic waves that move over the screen, reflect, and then are read by the receiving piezoelectric receivers. When the surface of the glass is touched, some acoustic waves are absorbed, but some bounce back and are detected by the piezoelectric receivers. Because ultrasound surface wave acoustic touchscreens use glass, they have high transmittance and long operating lives. Ultrasound surface wave acoustic touchscreens are often used in the medical field, casinos, amusement facilities, public facilities, and financial institutions.

Resistive touch screen panels are generally more affordable but offer only 75 percent clarity and the layer can be damaged by sharp objects. One advantage of the capacitive system over the resistive system is that it transmits almost 92 percent of the light emitted from the monitor, whereas the resistive system transmits only about 75 percent. This gives the capacitive system a much clearer picture than the resistive system. Also, the capacitive system has a very long life.

Of course, there are still reasons to consider a SAW touchscreen. Unlike capacitive touchscreens, SAW touchscreens can read touch commands created with a traditional stylus. In fact, you can use any object to perform touch commands on a SAW touchscreen. Any object placed on the display surface will **disrupt** the sound waves in that area. SAW touchscreens are also long-lasting. This is because performing touch commands on a SAW touchscreen places little or no stress on its components. Therefore, SAW touchscreens can last for hundreds of thousands of touches.

Direction: Select the word which is **MOST OPPOSITE** in meaning to the word given in bold, as used in the passage.

Tactile

1. Corporeal
2. Haptic
3. Tangible
4. Tactual
5. Untouchable

Solution Correct Option - 5

Que. 67 **Direction:** Select the word which is **MOST SIMILAR** in meaning to the word given in bold, as used in the passage.

Disrupt

1. Impede
2. Precipitate
3. Amalgamation
4. Reconciliation
5. Hasten

Solution Correct Option - 1

Que. 68 **Direction:** Select the word which is **MOST SIMILAR** in meaning to the word given in bold, as used in the passage.

Relays

1. Retain
2. Eradicate
3. Stifle
4. Transmit
5. Extirpate

Solution Correct Option - 4

Que. 69 According to the passage, the 'resistive sytem' consists of

1. a layer of an electroconductive material (most often indium tin-oxide) that stores an electrical charge
2. a unique glass panel that is covered with conductive and semi-conductive metallic layers
3. a normal glass panel that is covered with conductive and resistive metallic layers
4. single pane of glass, a transmitter, and two piezoelectric receivers
5. a normal glass panel that is covered with reconstructive and resistive metallic layers

Solution Correct Option - 3

Que. 70 Identify the statement which is true as per the passage:

1. The change in the electrical field is noted and the coordinates of the point of contact are calculated by the piezoelectric receivers.
2. Resistive touch screen panels are generally more affordable but offer only 70 percent clarity and the layer can be damaged by sharp objects.
3. Unlike capacitive touchscreens, SAW touchscreens can read touch commands created with a modern stylus.

4. Mobile phones may use three types of input devices.
5. Ultrasound surface wave acoustic touchscreens are often used in the medical field, casinos, amusement facilities, public facilities, and financial institutions.

Solution Correct Option - 5

Que. 71 Which type of touch screen technology is often used in financial institutions as per the passage?

1. Surface-wave based systems
2. Resistive system
3. Capacitive system
4. Tactile surface system
5. Piezoelectric system

Solution Correct Option - 1

Que. 72 What could be the most suitable title for the passage?

1. Mobile touchscreen technology
2. Evolution of the capacitive touch screen
3. Advantages of touch screen
4. Components of mobile phone
5. Mobile phone technology

Solution Correct Option - 1

Que. 73 All of the following conclusions are reasonably supported by the second and third paragraph of the passage EXCEPT:

1. Capacitive touch screen is not at par in terms of cost in comparison to resistive touch screen.
2. Light emitted from the monitor is substantially higher in capacitive system in comparison to resistive system.
3. Stress application on a SAW touchscreen is negligible.
4. SAW touch screen lasts longer than a capacitive touch screen.
5. Touch commands on a SAW touchscreen can also be performed without using any specific object.

Solution Correct Option - 4

Que. 74 Which of the following can be properly inferred from the passage?

1. Keypad type of device has become outdated with the advent of touchscreen technology.
2. Financial institutions only use Surface wave acoustic (SAW) touchscreens.
3. The picture quality of the capacitive touch screen is much better than the resistive touch screen.
4. SAW touchscreens can read touch commands created with a traditional stylus as well as modern stylus.
5. The change in the electrical current is registered as a touch event and sent to the semiconductor for processing.

Solution Correct Option - 3

Que. 75 Which of the following is/are false in the context of this passage?

1. Once the coordinates are known, a special driver translates the touch into something that the operating system can understand, much as a computer mouse driver translates the movements of a mouse into a click or a drag.

2. Because ultrasound surface wave acoustic touchscreens use glass, they have high transmittance and long operating lives.
3. An electrical current runs through the two layers while the monitor is dysfunctional.
4. The touch screens are sensitive to pressure; a user interacts with the mobile applications by touching pictures or words on the screen.
5. All of the above

Solution Correct Option - 3

Que. 76 In the given question, a word in the sentence is printed in bold. Below the sentence, alternatives to the emboldened part are given which may help improve the sentence. Choose the correct alternative out of the given five options.

A small business has to **accuse** to meet the operating expenses when its profits decrease.

1. Strike
2. Replenish
3. Struggle
4. Cripple
5. Yield

Solution Correct Option - 3

Que. 77 In the given question, a word in the sentence is printed in bold. Below the sentence, alternatives to the emboldened part are given which may help improve the sentence. Choose the correct alternative out of the given five options.

The child's parents or guardians must give their **appraisal** before she has the operation.

1. Epitome
2. Hurdle
3. Honor
4. Virtue
5. Consent

Solution Correct Option - 5

Que. 78 In the given question, a word in the sentence is printed in bold. Below the sentence, alternatives to the emboldened part are given which may help improve the sentence. Choose the correct alternative out of the given five options.

Growing levels of pollution represent a serious health **havoc** to the local population.

1. Demise
2. Rage
3. Hazard
4. Grudge
5. Trail

Solution Correct Option - 3

Que. 79 Which of the phrases given in the below sentence should replace the word/phrase that is underlined in the sentence to make it grammatically correct? If the sentence is correct as it is given and no correction is required, make 'No Correction required' as the answer.

Maurice has been pacing in the lobby of the hotel from 8 'o' clock in the morning.

1. past 8 'o'clock in the morning
2. since 8 'o'clock in the morning.

3. for 8 'o'clock in the morning
4. from 8 'o'clock of the morning
5. No Correction Required

Solution Correct Option - 2

Que. 80 Which of the phrases given in the below sentence should replace the word/phrase that is underlined in the sentence to make it grammatically correct? If the sentence is correct as it is given and no correction is required, make 'No Correction required' as the answer.

Sally was fine with any of the flower arrangement as long as it didn't go over budget.

1. many of the flower arrangement
2. any of the flower arrangements
3. one of the flower arrangement
4. some of the flower arrangement
5. No Correction Requirement

Solution Correct Option - 2

Que. 81 Direction: Fill in the blanks in the passage below, with the word from among the options given for each blank labelled (A) to (J). Choose the word that fits in each blank most appropriately in the context of the passage.

Humans may be hard-wired to feel at _____ (A) in the countryside and confused in cities – even if they were born and raised in an urban area. According to preliminary results of a study by scientists at Exeter University, an area of the brain associated with being in a calm, _____ (B) state lit up when people were shown pictures of rural settings. But images of urban environments resulted in a significant _____ (C) in reaction, before a part of the brain involved in processing visual _____ (D) swung into action as the viewer tried to work out what they were seeing.

The study, which used an MRI scanner to monitor brain activity, adds to a growing body of evidence that natural environments are good for humans, affecting the mental and physical health and even levels of aggression. Dr. Ian Frampton, an Exeter University psychologist, stressed the researchers still had more work to do but said they may have hit upon something _____ (E).

"When looking at urban environments the brain is doing a lot of processing because it doesn't know what this environment is," he said. "The brain doesn't have an immediate natural response to it, so it has to get busy. Part of the brain that deals with visual complexity lights up: 'What is this that I'm looking at?' Even if you have lived in a city all your life, it seems your brain doesn't quite know what to do with these _____ (F) and has to do visual processing," he said.

Rural images produced a "much quieter" response in a "completely different part of the brain", he added. "There's much less activity. It seems to be in the limbic system, a much older, evolutionarily, part of the brain that we share with monkeys and _____ (G)." The effect does not appear to be aesthetic as it was found even when _____ (H) urban and "very dull" pictures of the countryside were used.

Professor Michael Depledge of Exeter University, a former Environment Agency chief scientist, said urban dwellers could be _____ (I) in the same way as animals kept in captivity. He said the move to the cities had been accompanied by an "incredible rise in depression and behavioural _____ (J)".

Which of the following fits in the blank labelled (A)?

1. Peace
2. Duplicity
3. Encomium
4. Naive
5. Feeble

Solution Correct Option - 1

Que. 82 Which of the following fits in the blank labelled (B)?

1. Outrageous
2. Irritated
3. Meditative
4. Provoked
5. Fraught

Solution Correct Option - 3

Que. 83 Which of the following fits in the blank labelled (C)?

1. Linger
2. Germinate
3. Hamper
4. Hoodwink
5. Hurtle

Solution Correct Option - 1

Que. 84 Which of the following fits in the blank labelled (D)?

1. Simplicity
2. Clarity
3. Hostelry
4. Idiosyncrasy
5. Complexity

Solution Correct Option - 5

Que. 85 Which of the following fits in the blank labelled (E)?

1. Insignificant
2. Momentous
3. Minor
4. Inconsequential
5. Trivial

Solution Correct Option - 2

Que. 86 Which of the following fits in the blank labelled (F)?

1. Hysteria
2. Ideology
3. Hue
4. Deets
5. Hegemony

Solution Correct Option - 4

Que. 87 Which of the following fits in the blank labelled (G)?

1. Harridan
2. Holster
3. Primates

4. Devotee
5. Fresco

Solution Correct Option - 3

Que. 88 Which of the following fits in the blank labelled (H)?

1. Alluring
2. Coarse
3. Horrible
4. Inelegant
5. Inferior

Solution Correct Option - 1

Que. 89 Which of the following fits in the blank labelled (I)?

1. Agonizing
2. Pleasing
3. Gratifying
4. Thrilling
5. Satisfying

Solution Correct Option - 1

Que. 90 Which of the following fits in the blank labelled (J)?

1. Normalcy
2. Sanity
3. Normality
4. Regularities
5. Abnormalities

Solution Correct Option - 5

Que. 91 In the following sentence, some parts have been printed in bold. One of the bold parts is incorrectly spelt. Pick up that part and choose its number. If there is no error in the bold parts, choose option 5- no error as the answer.

On May 5, the RBI **unvieled** a host of **measures** to boost fund flow to the healthcare sector and **pump** more liquidity into the system apart from providing another window to individual **borrowers**.

1. unvieled
2. measures
3. pump
4. borrowers
5. No error.

Solution Correct Option - 1

Que. 92 In the following sentence, some parts have been printed in bold. One of the bold parts is incorrectly spelt. Pick up that part and choose its number. If there is no error in the bold parts, choose option 5- no error as the answer.

Her **progress** in learning was rapid, and her husband, who was her **teacher**, was delighted to **observe** how quickly she **mastred** the sentences.

1. progress

2. teacher
3. observe
4. mastred
5. No error

Solution Correct Option - 4

Que. 93 In the following sentence, some parts have been printed in bold. One of the bold parts is incorrectly spelt. Pick up that part and choose its number. If there is no error in the bold parts, choose option 5- no error as the answer.

The world as we know it has come to a **degenerating** and **loathsome** standstill, **rotting** away into the far **reaches** of debauchery.

1. degenerating
2. loathsome
3. rotting
4. reaches
5. No error

Solution Correct Option - 2

Que. 94 In the following question, a sentence is given with four words marked as (A), (B), (C) and (D). These words may or may not be placed in the correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.

Because of low **surge(A)** and high **demand(B)**, there is a sudden **supply(C)** in the **price(D)** of natural oil.

1. C - D
2. A - C
3. B - D
4. D - A
5. No rearrangements

Solution Correct Option - 2

Que. 95 In the following question, a sentence is given with four words marked as (A), (B), (C) and (D). These words may or may not be placed in a correct order. Four options with different arrangements of these words have been provided. Mark the option with the correct arrangement as the answer. If no rearrangement is required, mark option (5) as your answer.

Having **never(A)** held a snake **timid(B)**, the girl was very **before(C)** at handling the **creature(D)**.

1. A - B
2. B - C
3. C - D
4. D - A
5. No arrangements

Solution Correct Option - 2

Que. 96 Rearrange the following five sentences/group of sentences (A), (B), (C), (D), and (E) in the proper sequence to form a meaningful paragraph; then answer the questions given below them.

(A) New behaviours can become automatic through the process of habit formation.

(B) A habit is a routine of behavior that is repeated regularly and tends to occur subconsciously.

- (C) Habitual behavior often goes unnoticed in persons exhibiting it, because a person does not need to engage in self-analysis when undertaking routine tasks.
- (D) A 2002 daily experience study by habit researcher Wendy Wood and her colleagues found that approximately 43% of daily behaviors are performed out of habit.
- (E) The American Journal of Psychology defines a "habit, from the standpoint of psychology, as a more or less fixed way of thinking, willing, or feeling acquired through previous repetition of a mental experience."

Which of the following should be the FIRST sentence after rearrangement?

1. A
2. B
3. C
4. E
5. D

Solution Correct Option - 2

Que. 97 Which of the following should be the SECOND sentence after rearrangement?

1. A
2. B
3. C
4. D
5. E

Solution Correct Option - 5

Que. 98 Which of the following should be the THIRD sentence after rearrangement?

1. A
2. B
3. C
4. D
5. E

Solution Correct Option - 3

Que. 99 Which of the following should be the FOURTH sentence after rearrangement?

1. A
2. B
3. C
4. D
5. E

Solution Correct Option - 4

Que. 100 Which of the following should be the LAST sentence after rearrangement?

1. A
2. B
3. C
4. D
5. E

Que. 101 A man purchase 200 bananas at the rate of 12 per dozen. After 1 day he found that 50 bananas were unfit to sold. At what price should he sold the remaining bananas per dozen to get the gain of 5%

1. 16
2. 16.8
3. 20
4. 12
5. 14

Solution Correct Option - 2

Que. 102 The price of ticket of a cinema hall is increased in the ratio 7 : 13. Find the increase in the price, if the increased price is Rs. 390.

1. Rs. 210
2. Rs. 180
3. Rs. 200
4. Rs. 150
5. Rs. 100

Solution Correct Option - 2

Que. 103 In a mixture of 60 litres, the ratio of milk and water is 5 : 3. In order to make this ratio 1 : 2, the quantity of water to be added to the mixture is

1. 17.5 litres
2. 22.5 litres
3. 58.5 litres
4. 52.5 litres
5. 25.5 litres

Solution Correct Option - 4

Que. 104 R and S are employed to fill a cistern. R fills 4 litres in 3 minutes and S fills 3 litres in 4 minutes. In how much time will they fill 75 litres when working together?

1. 16 minutes
2. 36 minutes
3. 42 minutes
4. 14 minutes
5. 12 minutes

Solution Correct Option - 2

Que. 105 The capacity ratio of A, B, and C is 2 : 3 : 4. Together they can complete a piece of work in 12 days. In how many days can B alone complete the same work?

1. 18
2. 30
3. 24
4. 36
5. 12

Que. 106 What approximate value will come in the place of the question mark '?' in the following question?

$$(5.96)^3 - (2.14)^5 + (4)^2 = (10)^? \times 2$$

1. 10
2. 3
3. 2
4. 1
5. 4

Solution Correct Option - 3

Que. 107 What approximate will come in the place of the question mark '?' in the following question?
31.902% of 199.9 $\times$ 52.98% of ? = 6784.126

1. 200
2. 190
3. 210
4. 180
5. None of these.

Solution Correct Option - 1

Que. 108 What approximate value should come in the place of question mark (?) in the following question?
 $64.03 \times 3.98 - (14.01)^2 + 49.99 = ?$

1. 111
2. 109
3. 110
4. 112
5. 113

Solution Correct Option - 3

Que. 109 What approximate value should come in place of the question mark (?) in the following question?
 $6.96 \times \sqrt{49.023} + 7.92 \times 7.78 = ?$

1. 60
2. 92
3. 63
4. 98
5. None of these.

Solution Correct Option - 5

Que. 110 What approximate value should come in the place of the question mark '?' in the following question?

$$8489.96 \div 30.14 + 1169.96 \div 9.97 = ?^2$$

1. 400
2. 1600

3. 20
4. 40
5. 100

Solution Correct Option - 3

Que. 111 What approximate value should come in place of the question mark (?) in the following question?

$$28.97 \times 12.03 + 96.11 \div 5.97 - 2.99 = ?^2$$

1. 361
2. 17
3. 18
4. 19
5. 20

Solution Correct Option - 4

Que. 112 What approximate value should come in place of the question mark (?) in the following question?

$$6239.99 \times 62.5\% + 4250 \div ? = 6025$$

1. 5
2. 6
3. 2
4. 18
5. 11

Solution Correct Option - 3

Que. 113 What approximate value should come in the place of question mark (?) in the following question?

$$76.04 \div 18.98 - 21.99 \times 1.5 + 55.99 = ?$$

1. 27
2. 29
3. 33
4. 37
5. 39

Solution Correct Option - 1

Que. 114 What approximate value will come in the place of the question mark '?' in the following question?

$$33.14 + 56.05 - 85.03 \div 16.96 \times 4.98 = ?$$

1. 66
2. 65
3. 64
4. 62
5. 61

Solution Correct Option - 3

Que. 115 What approximate value will come in the place of the question mark '?' in the following question?

$$19.89\% \text{ of } 299.648 + 71.88 = ? \times \sqrt{15.99}$$

1. 24
2. 33
3. 30
4. 36
5. None of these.

Solution Correct Option - 2

Que. 116 **Direction:** Read the following data carefully and answer the following questions:

There are 14000 students in a school. Out of this, 5000 students like Maths, 4500 students like Science and 4000 students like Sanskrit. There are 1500 students who like all three subjects. There are 2500 students who like Maths and Science, 2700 students like Science and Sanskrit while 2300 students like Maths and Sanskrit. There are some students who don't like any subjects.

Find the number of students who like at least one subject.

1. 4500
2. 6500
3. 2500
4. 1500
5. 7500

Solution Correct Option - 5

Que. 117 The number of students who don't like any of the three subjects is –

1. 6500
2. 5450
3. 4600
4. 2700
5. 4800

Solution Correct Option - 1

Que. 118 The number of students who like only two Subjects is what percent of the total number of students who like at least one subject?

1. 32%
2. 40%
3. 28%
4. 16%
5. 12%

Solution Correct Option - 2

Que. 119 What was the ratio between the number of students who like at most two Subjects and the number of students who like at most one subject.

1. 22 : 19
2. 12 : 7
3. 23 : 17
4. 2 : 1
5. 15 : 8

Solution Correct Option - 4

Que. 120 Find the difference between the number of students who like only one subject and number of students who like only two Subjects.

1. 7500
2. 5500
3. 6000
4. 5000
5. none of these

Solution Correct Option - 5

Que. 121 In the given question, two equations numbered I and II are given. Solve both the equations and mark the appropriate answer.

I. $4x^2 - 32x + 63 = 0$

II. $y^2 - 16y + 63 = 0$

1. $x > y$
2. $x < y$
3. $x \geq y$
4. $x \leq y$
5. $x = y$ or the relationship between x and y cannot be established

Solution Correct Option - 2

Que. 122 In the given question, two equations numbered I and II are given. Solve both the equations and mark the appropriate answer.

I. $x^2 - 5x - 66 = 0$

II. $y^2 + 12y + 35 = 0$

1. $x > y$
2. $x < y$
3. $x \geq y$
4. $x \leq y$
5. $x = y$ or the relationship between x and y cannot be established

Solution Correct Option - 5

Que. 123 In the given question, two equations numbered I and II are given. Solve both the equations and mark the appropriate answer.

I. $x^2 - 13x + 42 = 0$

II. $y^2 - 6y + 5 = 0$

1. $x > y$
2. $x < y$
3. $x \geq y$
4. $x \leq y$
5. $x = y$ or relationship between x and y cannot be established

Solution Correct Option - 1

Que. 124 In the given question, two equations numbered I and II are given. Solve both the equations and marked the appropriate answer.

I. $x^2 - 11x = 0$

II. $y^3 = 1728$

1. $x > y$
2. $x < y$
3. $x \geq y$
4. $x \leq y$
5. $x = y$ or the relation between x and y cannot be established

Solution Correct Option - 2

Que. 125 In the given question, two equations numbered I and II are given. Solve both the equations and marked the appropriate answer.

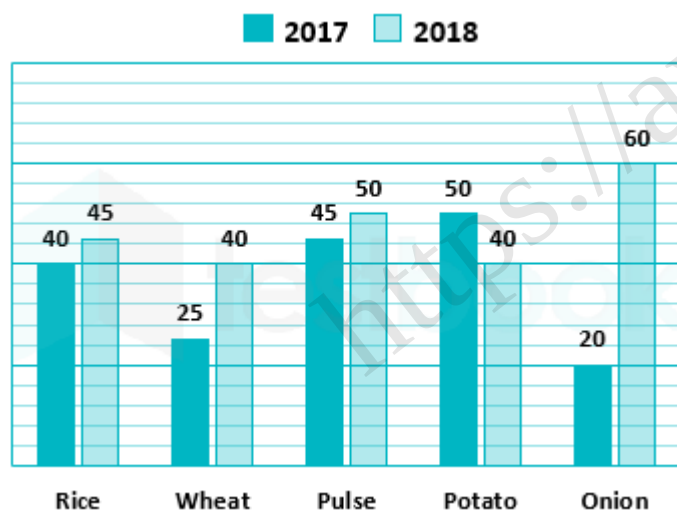

I. $x^2 + 2x - 8 = 0$

II. $y^2 - 8y + 12 = 0$

1. $x > y$
2. $x < y$
3. $x \geq y$
4. $x \leq y$
5. $x = y$ or relationship between x and y cannot be established

Solution Correct Option - 4

Que. 126 The given Bar Graph represents the types of Food materials exported by a company during 2017 and 2018 (In lakhs).

What is the ratio between wheat and Pulse exported in 2017 to the exported food of Onion and Potato in 2018?

1. 8 : 13
2. 7 : 11
3. 9 : 10
4. 7 : 10
5. 7 : 9

Solution Correct Option - 4

Que. 127 What is the Average difference in the exported Rice, Pulse, Wheat, and Onion in 2018 and exported Potato, Onion, pulse, and Rice in 2017?

1. 14

2. 15
3. 10
4. 12
5. 11

Solution Correct Option - 3

Que. 128 The Average of exported Pulse, Rice, and Wheat in 2018 was A% less than the exported Potato in 2017. What is the value of A?

1. 15%
2. 10%
3. 18%
4. 12%
5. 11%

Solution Correct Option - 2

Que. 129 Which type of food shows a 200% increased in export in 2018 as compared to that in the previous year?

1. Pulse
2. Onion
3. Potato
4. Rice
5. Wheat

Solution Correct Option - 2

Que. 130 What is the average of all exported food in 2018?

1. 36
2. 48
3. 45
4. 47
5. 49

Solution Correct Option - 4

Que. 131 In the following number series, a wrong number is given. Find out the wrong number.
23, 27, 18, 34, 9, 42

1. 42
2. 23
3. 27
4. 18
5. 34

Solution Correct Option - 1

Que. 132 In the following number series, a wrong number is given. Find out the wrong number.
3000, 600, 150, 50, 25, 12.5

1. 600
2. 150

- 3. 50
- 4. 12.5
- 5. 25

Solution Correct Option - 4

Que. 133 In the following number series, a wrong number is given. Find out the wrong number.
24, 23, 25, 22, 26, 22

- 1. 24
- 2. 22
- 3. 25
- 4. 26
- 5. 23

Solution Correct Option - 2

Que. 134 In the following number series, a wrong number is given. Find out the wrong number.
125, 130, 140, 155, 170, 200

- 1. 200
- 2. 130
- 3. 140
- 4. 170
- 5. 155

Solution Correct Option - 4

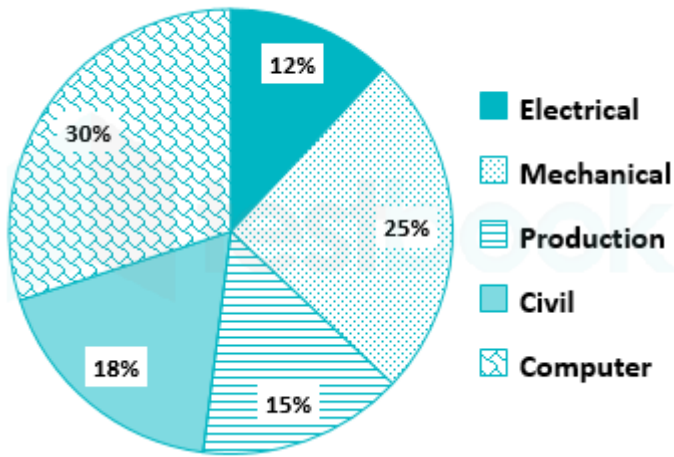

Que. 135 In the following number series, a wrong number is given. Find out the wrong number.
4, 7, 13, 25, 48, 97

- 1. 4
- 2. 7
- 3. 48
- 4. 25
- 5. 97

Solution Correct Option - 3

Que. 136 **Directions:** Study the following data and answer the following questions:
Total number of students = 5000

Number of Students

Find the difference between the number of students of Computer and Mechanical branch students.

1. 110
2. 210
3. 180
4. 220
5. 250

Solution

Correct Option - 5

Que. 137 The number of students in Production is approximately what percent less than the number of students of Mechanical branch?

1. 50%
2. 60%
3. 30%
4. 40%
5. 90%

Solution

Correct Option - 4

Que. 138 The ratio between the number of students of Civil and total number of students of five branches.

1. 3 : 2
2. 9 : 50
3. 4 : 9
4. 2 : 30
5. 1 : 7

Solution

Correct Option - 2

Que. 139 Find the average number of students of Electrical and Computer students.

1. 1500
2. 1100
3. 1050
4. 1200
5. 1800

Solution

Correct Option - 3

Que. 140 Find the degree percentage number of students Production branch.

1. 12°

2. 36°
3. 22°
4. 15°
5. 54°

Solution Correct Option - 5

Que. 141 The difference between the compound interest (annual compounding) and simple interest on a sum at the rate of 10 percent per annum for 2 years is Rs. 360. What is the sum?

1. Rs. 36000
2. Rs. 30000
3. Rs. 42000
4. Rs. 32000
5. Rs. 25000

Solution Correct Option - 1

Que. 142 Two cities Bhilai and Manmad are 465 km distant. A car starts from Bhilai towards Manmad at 10 AM with the speed 65 km/hr. Another car leaves from Manmad towards Bhilai at 11 AM with the speed 35 km/hr. Find the time at which both the trains meet.

1. 3 PM
2. 8 PM
3. 3 AM
4. 4 PM
5. None of these

Solution Correct Option - 1

Que. 143 After getting two successive discounts Girija got a pair of jeans at Rs. 714 whose marked price is Rs. 1000. If the first discount is given to be 16% what will be the second discount?

1. 13%
2. 15%
3. 20%
4. 8%
5. None of the above.

Solution Correct Option - 2

Que. 144 Three cards are picked from all face cards in a deck. Find the number of ways of selecting atleast 2 red cards.

1. 90
2. 100
3. 110
4. 96
5. 85

Solution Correct Option - 3

Que. 145 A and B enter into partnership with money in the ratio 5 : 8. At the end of 10 months A withdraws all the amount and the profits now are divided in the ratio of 5 : 4. Find how long B remained in the business?

1. 5 months
2. 8 months
3. 7 months
4. 6 months
5. None of these

Solution Correct Option - 1

Que. 146 Population of a village increased by 15% from 1995 to 1996 and by 10% from 1996 to 1997. If the population of the village was 400 in 1995, what was its population in 1997?

1. 536
2. 406
3. 506
4. 526
5. 576

Solution Correct Option - 3

Que. 147 3 coins are tossed simultaneously. What is the probability that all heads appear on the top?

1. $\frac{3}{8}$
2. $\frac{1}{3}$
3. $\frac{1}{8}$
4. $\frac{3}{5}$
5. $\frac{1}{2}$

Solution Correct Option - 3

Que. 148 Two trains a superfast express and a passenger train having lengths 580 m and 470 m are travelling towards each other with the speeds of 80 km/h and 46 km/h respectively. Find the time taken to cross each other.

1. 45 seconds
2. 20 seconds
3. 25 seconds
4. 30 seconds
5. 35 seconds

Solution Correct Option - 4

Que. 149 The speed of a boat is 6 km/h in still water and the speed of the stream is 2 km/h, if the boat takes 6 hours to go to a place and comeback. Then find the distance of the place.

1. 16 km
2. 8 km
3. 24 km
4. 18 km
5. 30 km

Solution Correct Option - 1

Que. 150 The length and breadth of a rectangle are 15 cm and 13 cm. The perimeter of a square is same with the perimeter of the rectangle. What is the area of the square?

1. 156 cm²
2. 169 cm²
3. 196 cm²
4. 212 cm²
5. 121 cm²

Solution Correct Option - 3

Que. 151 Where is the headquarters of Deposit Insurance and Credit Guarantee Corporation (DICGC) situated?

1. Hyderabad
2. Delhi
3. Chennai
4. Mumbai
5. Kolkata

Solution Correct Option - 4

Que. 152 ISDA stands for _____.

1. Integrated Swaps and Distribution Association
2. Integrated Swaps and Derivatives Association
3. Internal Swaps and Distribution Association
4. International Swaps and Derivatives Association
5. Internal Swaps and Derivatives Association

Solution Correct Option - 4

Que. 153 In which state is Bank of India (BoI) headquartered?

1. Delhi
2. Madhya Pradesh
3. Maharashtra
4. Karnataka
5. Kerala

Solution Correct Option - 3

Que. 154 The Private equity investors shall not hold more than _____ percent of the paid up equity share capital of the Indian Insurance Company.

1. 5%
2. 10%
3. 15%
4. 20%
